

Declaration of compliance with EU Regulation 2017/821 on conflict minerals

Grüning & Loske GmbH confirms that it complies with the applicable legal requirements relating to conflict minerals.

In particular: We do not source any raw materials, semi-finished products, or products that we know to contain conflict minerals whose origin does not meet the requirements of the EU Regulation.

We also expect our suppliers to exercise due diligence within their supply chains and to be able to verify the origin of the materials used.

In addition, we are continuously committed to making our supply chains transparent and minimizing potential risks in connection with conflict minerals.

Should we become aware of any new information that indicates possible violations of the EU regulation, we will take appropriate measures to investigate these risks and, if necessary, eliminate them.

Grüning & Loske GmbH
